**NEW HOME BATH AND MIRROR UNVEILS
NEWEST GENERATION OF FOGLESS MIRROR**

Shower ClearMirror™ will stay steam free while you shave in the shower

WOODBURY, MN., July 21, 2000 - NewHome Bath and Mirror, Inc. today announced the introduction of its newest product, the Shower ClearMirror™(patent pending). Reid Sellgren, Vice-President of NewHome Bath and Mirror Inc. made the announcement.

The Shower ClearMirror™ is a glass mirror and defogger designed to be installed flush with the bathroom shower surround. To heat the ClearMirror™, a low-voltage transformer provides a safe electrical current plugged in below the vanity or in an adjoining closet. Like the other ClearMirror™ products, the main benefit of the new Shower ClearMirror™ product is a fogless mirror experience enabling the user to shave and conduct other grooming activities while showering, making shower time more productive.

Commenting on the Shower ClearMirror™, Sellgren stated “Each of the products in our ClearMirror™ line has been UL - listed and met with tremendous interest and enjoyed growing success. We expect our Shower ClearMirror™ to do the same, setting new standards for grooming and bathroom convenience.” For more information on the Shower ClearMirror™ and other NewHome Bath and Mirror products, contact Reid Sellgren at (651) 714-2362.

NewHome Bath and Mirror, Inc. of Woodbury, Minnesota specializes in applying modern technology to enhance lifestyle, convenience and safety in our homes.
